SERIES 56
0.5” Diameter, 200mA, .355” Behind Panel

FEATURES
- Requires Minimum Distance Behind the Panel
- Adjustable Stop Types Provide Prototypes Immediately
- Industrial Quality, Economically Priced
- RoHS Compliant

DIMENSIONS  in inches (and millimeters)

One cycle is 360° rotation clockwise and 360° return. The data for the curve was measured at sea level, 25°C and 68% relative humidity with the life limiting criteria which follows.

Contact Resistance: 100 milliohms maximum, (15 milliohms initially).

Insulation Resistance: 10,000 Mohms minimum between mutually insulated parts (50,000 Mohms initially).

Voltage Breakdown: 600 Vac minimum between mutually insulated parts at standard atmospheric pressure.

Life Expectancy: As determined from the load-life curve for the current to be switched. Contact GRAYHILL for more information if any of the following is true: the life limiting criteria are more critical than those listed; longer operation is required; a larger make and break current is required; the operating environment includes elevated temperatures or reduced pressures. Contact Carry Rating: Switch will carry 6 amperes continuously with a maximum contact temperature rise of 20°C.

Additional Characteristics
Contact Type and Forces: Shorting or non-shorting wiping contacts with over 25 grams of contact force.

Shaft Flat Orientation: Flat opposite contacting position of pole number one (see circuit diagrams).

Terminals: Switches have the full circle of terminals, regardless of number of active positions.

Stop Strength: 7.5 lb-in. minimum
Rotational Torque: 3.5 to 9 oz-in. (21-53 mN-m), depending on the number of poles.

Bushings and Stop Mounting: Required for switches with stops, and recommended for switches without stops.

Meets MIL-DTL-3786 for:
High and medium shock; Vibration (10 to 2,000 Hz); Thermal shock (−65° to 85 °C); Salt spray; Explosion; Stop strength (7.5 in-lbs. minimum (.85 N-m); Terminal strength; Sealed styles withstand water pressure of 15 PSI minimum (103 KPa) without leakage.

Materials and Finishes
Housing: Zinc die cast. Tin Zinc or Sulfamate Nickel Plated
Mounting Nut: Brass. Tin Zinc or Sulfamate Nickel Plated
Lockwasher: Spring steel, zinc plated
Panel Seal: Silicone rubber
Shaft Seal: Fluorosilicone rubber
Stop Pins: Stainless steel
Detent Rotor: Molded thermoplastic
Detent Spring: Music wire
Detent Balls: Steel, nickel-plated
Contact Spring: Stainless steel
Rotor Contact: Brass or zinc alloy, silver over nickel plate
Common Ring: Brass, gold over silver over nickel plate
Terminals: Brass, gold over silver over nickel plate
SHAFT AND PANEL SEAL: Style S

Panel is sealed by a flat rubber seal washer at the base of bushing. Shaft is sealed by an O-ring inside the bushing. After the switch is mounted, seals do not alter the dimensions of the unsealed style.

SCREWDRIVER SLOTTED SHAFT: Option

Series 56 rotary switches are available with a screwdriver slotted shaft with dimensions as shown. Available in the styles, angles of throw and pole/position combinations shown in the choice and limitations chart.

ADJUSTABLE STOP SWITCHES

Two stop pins and an adhesive backed sticker or seal washer are provided. Sticker is temporarily removed to locate stop pins as desired to limit the shaft rotation. All dimensions are identical to the fixed stop switch counterpart.

ACCESSORY: Non-Turn Washer

Cut round hole for the bushing and for the non-turn tab. Washer fits the double D bushing flats. Washer is sold only when accompanied by an order for a like number of switches. Washer is 302 stainless steel.

## CHOICES AND LIMITATIONS: Series 56

A = Standard, 1/8" Shaft  
B = Screwdriver Slot Shaft  
D = Adjustable Stop (Adj. Stop)  
P = PC Mount Terminals  
S = Shaft/Panel Seal (S/P Seal)

1 Adjustable stop versions allow selection of 2 positions to the maximum number of positions per pole.

### STANDARD OPTIONS

Available from your local Grayhill Distributor

For prices and discounts, contact a local Sales Office, an authorized local Distributor, or Grayhill. Not available thru Distributors when Intermixing of shorting and non-shorting contacts. Contact Grayhill.

### ORDERING INFORMATION

**Series**  
Letters from Choices Chart

**Style**  
A = Standard, 1/8" Shaft  
B = Screwdriver Slot Shaft  
D = Adjustable Stop (Adj. Stop)  
P = PC Mount Terminals  
S = Shaft/Panel Seal (S/P Seal)

**Angle of Throw**  
30° or 36°

**Stop Arrangement**  
The suffix C or F must be added to a one pole per deck switch with the maximum number of positions to indicate continuous rotation (C) or fixed stops (F) between position 1 and the last position.

**Type of Contacts**  
N = Non-shorting, S = Shorting

**Positions Per Pole**  
02 as a minimum to the maximum allowable for the angle of throw and number of poles per the Choices Chart. Use the letters AJ in this location if adjustable stop switch is to be ordered.

**Poles per Deck**  
Limited by angle of throw. See chart

**Number of Decks**  
01 only

**Shafts**  
S= Machined, Blank= Cold Formed
